Abstracting service for educational administration

The University Council for Educational Administration (UCEA) has begun publication of *Educational Administration Abstracts*. This periodical, which is to be published three times a year, contains 100-200 word abstracts of content from more than 80 journals. The primary audience includes professors and administrators.

Professors R. Jean Hills and John Croft of the University of Oregon Center for Advanced Study of Educational Administration are co-editors of the *Abstracts*. Subscriptions ($10 per year) should be sent to UCEA, 9 Page Hall, 65 South Oval Drive, Columbus, Ohio 43210.

The journals selected for inclusion in the *Abstracts* are reviewed by one of eight Section Editors for new information, knowledge, or concepts in educational administration. If author abstracts are not available, they are prepared by one of the more than 60 volunteer abstracters.

Curriculum studies group

The ETS has established a Curriculum Studies group. ETS is the Educational Testing service and the CS group was established to coordinate projects and services of four kinds: survey of instructional practices, research on definition of curriculum objectives, curriculum evaluation, and development and dissemination of evaluation techniques. Inquiries should be directed to Dr. S. B. Anderson, Director of Curriculum Studies, Educational Testing Service, Princeton, N. J., 08540.

ACE book on "College and the Student"

The "College and the Student" is a new publication of the American Council on Education. The 390-page book is edited by L. E. Dennis and J. F. Kauffman. It is an assessment of relationships and responsibilities in undergraduate education by administrators, faculty members, students, and public officials. The 46 essays in the book are by educational leaders and constitute a broad and searching look at the present-day college student, the intellectual climate of education in which he has been raised, and the campus enviroment in which he finds himself. Copies of the cloth-bound book may be ordered from the Publication Division of the ACE, 1785 Massachusetts Ave., NW., Washington, D. C., 20036, for $6 a copy.

ASEE Periodicals

Three of ASEE's Technical Divisions publish periodicals of specialized interest. For information, write to the addresses given below.

Chemical Engineering Education (four times a year)

Shelby A. Miller, Editor
University of Rochester
Rochester, N. Y. 14627

Rates (annual)

Chemical Engineering Division members	$3
Non-members, Western Hemisphere	$4
Non-members elsewhere	$5

The Engineering Economist (quarterly)

Arthur J. Lesser, Jr., Editor
Stevens Institute of Technology
Hoboken, N. J. 07030

Rates (annual)

U. S., Canada, PUAS countries	$5
Elsewhere	$6

The Journal of Engineering Graphics (three times a year)

Earl D. Black, Editor
General Motors Institute
Flint, Mich. 48502

James H. Earle, Circulation Manager
Texas A & M University
College Station, Texas 77843

Rates (annual)

U. S.	$2
Elsewhere—on request
